

# Plustek eScan SharePoint

Scan documents directly to Office 365 and SharePoint without a PC

## Dedicated and Customizable Document Scanning Kiosk

The Plustek eScan optimizes your SharePoint document management by letting you add your metadata directly to the scanned document before saving it into the library. The individual logins with custom presets makes the paper works more efficiently.

The eScan offers a full-color, intuitive interface that makes Microsoft Office365 and SharePoint accessible to everyone without extensive training. No matter what industry you work in, the eScan document-scanning kiosk can be easily integrated into your workflow.

User can log in to their SharePoint account directly through the large 7" touch panel on the eScan, with one operation, scan the batch of documents, enter index data and gets stored directly to the SharePoint library of choice. Multiple accounts can be stored on the device without installing on other PC nor server, providing full security protection and no operating system nor server version compatibility risk.

- Fast duplex scanning, scan PDF, JPG or TIFF
- Rigid card and multiple paper weight scanning
- Built-in image enhancement, cropping and blank page removal
- Supports network TWAIN
- Attach a USB keyboard ( not included) for convenient credential login and file naming.
- Portable unit provides privileged access, privacy and convenience

			
<p><b>PC-Less, Standalone Network Scanner</b></p> <p>No PC nor server needed!
